Right—THE PARASOL HAT, which is proving one of the latest beach crazes at fashionable Deauville, France, has arrived on this side of the pond. Our picture shows it adorning the fair head of Lucy Woods, of the Ziegfeld Follies, snapped the other day as she was about to breast the breakers at our own Long Beach.

AWAITING THE STARTER'S CAP PISTOL. Seven juvenile members of the "Flatbush Scooter Club" lined up ready for the start of one of the daily home-made roller skate scooter races over the asphalt track once known as Parkside Avenue. Sarah Glenn and Olga Brown, the champ feminine scooterists of the club, refuse handicaps from the boys and always start at scratch. The girls are pictured driving scooters No. 8 and No. 3.

Left — TWIN ATTRACTIONS AT YOSEMITE LODGE. The famous Yosemite Falls tumbling down over the rocky precipice in the background, and in the foreground, a fair California mermaid about to dive overboard into the Lodge's splendid swimming pool. Yosemite National Park is attracting 10,000 visitors a week this season as against 3,000 last.

GEORGES IN A NEW ROLE. The world's light heavyweight pugilistic champ, Georges Carpentier, Madame Carpentier and baby Jacqueline, snapped on the tennis courts at Pourville, near Dieppe, where the French idol has been vacationing from his boxing and film engagements. Wee daughter is evidently telling mother not to bite her tongue when she is having her picture taken.
